wedding band  
gold ring

**product:** although the design is a humble tribute to art nouveau style, the ring is loaded with personal symbols. since getting married is a major decision, the ring is broad and heavy, a presence that can not be neglected. continuity of a life together, with ups and downs, is translated in a varying height of the ring. the opening in the wedding band symbolises future and freedom: the possibility to see an opportunity in an unexpected happening. the ring is made in 18k yellow gold by singapore-based jeweller gek noi.

**product** ring  
**function** wedding band  
**year** 1996  
**with** loang & noi
