Design Flanders warmly invites you
on the opening of the exhibition

the New harvest 2009

on Thursday, 10 June 2010 at 6 PM.

Design Flanders is continuously looking for new design talent. They can be working in a contemporary and high-quality manner with ceramics, textile, jewelry, glass, furniture, service design, graphic and industrial design, etc. Twice a year – once during Spring, once during Autumn – designers can participate to be recognized as innovative and creative designer. A jury of experts of all the fields above mentioned evaluates the designers on the basis of files they submitted. 21 designers from Flanders have been recognized by Design Flanders in 2009. In the annual New Harvest exhibition the Gallery becomes their platform during more than two months.

There are several advantages that come with being recognized by Design Flanders: not only is it an official recognition of their design talent, the designers can receive subsidies for exhibitions, participate in trade fairs and other promotional activities. They receive a mention in the *Kwintessens* magazine, are eligible to participate in exhibitions and trade fairs that are (co-)organised by Design Flanders and can contact the Agentschap Ondernemen within the framework of the SME portfolio for an official recognition as a service provider of strategic advice and technological studies.
